Privacy Policy – AI Automation

1. Introduction

This Privacy Policy applies to the internal Google Cloud Console application "AI Automation," operated by FLEX FLOW AI in Yerevan, Armenia. The application is used exclusively within our organization to activate and manage Google APIs and related cloud services.

2. Nature of the Application

AI Automation is not a consumer-facing product and does not intentionally collect or retain personal data. Any processing occurs through Google Cloud Platform under Google's policies.

3. Data Collection

FLEX FLOW AI does not design the application to collect personal data. Google Cloud may, however, generate system logs, API metadata, analytics, and diagnostic information.

4. Third-Party Services

The application interacts solely with Google Cloud services. No external third-party processors are used.

5. Data Security

We rely on Google Cloud's enterprise-grade infrastructure. Access is restricted to authorized personnel only.

6. Data Retention

FLEX FLOW AI does not store or retain data. Google Cloud maintains logs according to its own retention policies.

7. User Rights

The application is internal. No consumer data rights apply.

8. Updates

This policy may be updated internally as needed.
